

LEARNING HOW TO CORRECTLY USE YOUR PENDULUM

We have many tools available to us which we can use to assist us in finding the guidance and answers we desperately seek. In this workshop we will be focusing our attention on the optimal and accurate use of the pendulum.

It is a tool which have taken many forms over the centuries and have been utilized in many platforms; from predicting future events, finding water, to assisting in guiding medical treatments. The key however is to learn how use your pendulum so the information you receive is 100% accurate.

This workshop will teach you techniques on how to neutralise so to ensure accurate readings. It will also assist you in the actual use of your pendulum. How to clean, clear and protect it as well as yourself. The day will be filled with loads of practical exercises to perfect your skill and technique. Meditations and breathing techniques will be done throughout the workshop to assist in clearing our minds and energy fields, enhancing accuracy.

Pendulums can be purchased from me on the day at R200 per pendulum. They are all plain brass pendulums which I recommend.
